## Release Notes

### Release v5.0.2 (3 items)

#### Compiler/Target/Microcontroller

*New Feature*

TES-3887

Linux porting of the combinations Arm compiler with Arm Development Studio and Linaro compiler with Arm Development Studio. Also ARM DS-5 is supported for these compilers.

---

#### Compiler/Target/Microcontroller

*New Feature*

TES-3949

Added Linux support for Green Hills Arm compiler with Green Hills MULTI and Lauterbach TRACE32 debuggers.

---

#### TESSY (General)

*New Feature*

TES-3416

TESSY is now available also for Linux platforms, starting with Ubuntu 20.04. Legacy versions will not be supported officially.

Further Linux distributions will be supported successively on demand.

---
